

Kube by Example

Introduction

Introduction to KBE

What is Kube by Example?

- Kube by Example, also known as KBE
- KBE is a website community sponsored by Red Hat
- KBE has numerous blog posts, lessons, and tools dedicated to learning Kubernetes and other cloud native technologies

KBE Learning Paths

- A learning path is a collection of lessons / courses to learn a specific technology area
- Some popular paths:
 - Kubernetes Fundamentals
 - Container Fundamentals
 - Command Line Essentials
 - Developer with Java on Kubernetes
 - Developing with Spring Boot on Kubernetes

Spring Boot on Kubernetes

- John Thompson has contributed 3 Spring Boot Courses to KBE
- All courses are available for free on Udemy
- Recommended Sequence of Courses:
 1. **Building Spring Boot Docker Images** - Learn how to create a Docker image with your Spring Boot application.
 2. **Spring Boot on Kubernetes** - Deploy a simple Spring Boot Application under Kubernetes
 3. **Spring Boot Microservices on Kubernetes** - Deploy a group of Spring Boot Microservices under Kubernetes
